## THE "HOME SEEKER."

FIVE THOUSAND COPIES OF THE "HOME SEEKER" were published last month and placed in the hands of those coming into the state in search of homes. Our agent in Oregon has sold a large number of copies, and the hands of each head of a family and single person. An advertisement in an ordinary newspaper, prominently distributed, does not meet with much success; but even if every individual copy which it reaches, THE "HOME SEEKER" is distributed only to those who are endeavoring to find a home. Not a single copy is wasted. We have received a solid support from the business community, and the advertising has been continuous publication of the "HOME SEEKER," its assured fact. Much land can be sold by an agent who has the "HOME SEEKER" in his possession. We shall make the "HOME SEEKER" subserve the best interests of the northern states, and help to insure the success of every direct appeal which it reaches. THE "HOME SEEKER" is distributed only to those who are endeavoring to find a home. Not a single copy is wasted. ## THE GREAT LONDON SCANDAL.

The details of the expose made by the *Pall Mall Gazette* of London do not make good reading. They are not fit to be printed for distribution in the families of the land. They may be summed up in a single sentence—they charge that there exists a vastly extended and abominable traffic in England in the business of procuring victims for the gratification of the lusts of libertines, and female slaves for brutal task-masters, and that fraud, subterfuge and force are employed to secure the ruin and prostitution of young girls and mere children, and that the deforation of virgins by violence is a special business the victims being imported in part, as represented in part, and largely selected from the rural sections of England and the working classes of the cities. The evidence cited of the truth of the charge are about as strong as could be desired for the proving of any physical fact. These a poor house of affairs, which have long existed, and which have augmented in extent annually. They involve the blue-blous, the business men, the fashionable classes, and the criminal and non-producing elements of society. That, to a certain extent, the infamous business is paralleled in America and Europe is probably true. The *Gazette*, in laying bare to view this charnel-house of moral corruption and bestiality, has done a great service to society. In doing this it has been compelled to degrade its columns and tarnish its pages by the filthiest and most revolting recitals.

**General Gordon Could Have Been Saved for £5,000.**

PARIS, July 12th.—The *Intelligencier* prints a letter from M. Billing, a former diplomatist, saying that El Mahdi, a negro, who, on April 21, outraged Katie Gray, the 17-year-old daughter of a farmer, was taken out and hung to a tree at Huntingdon and Wesley Smith—were shot by the convicts. Edward Green was shot twice in the hip and leg, and another, Hugh Nixon received a load of shot in his back. The court, however, held that he was not guilty of aiding and abetting the rebels.

The Diage Indians on Rancho Chico have taken renewed interest in their musical studies, and are now constantly having practices with their brass bands.

Before being taken one of the convicts, Edward Green, was shot twice in the head. The Chinese who were driven from the Humboldt county, some time since, are gradually returning and resuming their old occupations.

The Royal Engineers of Nagpur county have ordered all the bridges under their control to be placarded "unsafe," no matter what their actual condition.

**Defenses of the Country.**

WASHINGTON, July 12th.—General Sheridan, who leaves Chicago to-night for the scene of anticipated Indian troubles in the Indian Territory, said in an interview today that in his opinion the Arapaho tribe was undoubtedly the most treacherous and the most likely to rise, and that it was impossible to restrain them, but that it was possible to make material progress.

The Mexican Government has declared two more railway concessions forfeited.

There is no immediate prospect of peace in Peru.

The Secretary of the Interior has ordered the cattle traps in Indian Territory to be kept free to healthy animals.

**THE GREAT LONDON SCANDAL.**

The details of the expose made by the *Pall Mall Gazette* of London do not make good reading. They are not fit to be printed for distribution in the families of the land. They may be summed up in a single sentence—they charge that there exists a vastly extended and abominable traffic in England in the business of procuring victims for the gratification of the lusts of libertines, and female slaves for brutal task-masters, and that fraud, subterfuge and force are employed to secure the ruin and prostitution of young girls and mere children, and that the deforation of virgins by violence is a special business the victims being imported in part, as represented in part, and largely selected from the rural sections of England and the working classes of the cities. The evidence cited of the truth of the charge are about as strong as could be desired for the proving of any physical fact. These a poor house of affairs, which have long existed, and which have augmented in extent annually. They involve the blue-blous, the business men, the fashionable classes, and the criminal and non-producing elements of society. That, to a certain extent, the infamous business is paralleled in America and Europe is probably true. The *Gazette*, in laying bare to view this charnel-house of moral corruption and bestiality, has done a great service to society. In doing this it has been compelled to degrade its columns and tarnish its pages by the filthiest and most revolting recitals.

## LOCAL INTELLIGENCE.

Board of Education.—The City Board of Education met Saturday evening for the purpose of receiving a report from the Building and Repair Committee. Present—Directors Petrie, Conlin, Davis, Alisp, and Avery. Absent—Slater, Chadderton, and Stevens.

Mr. Avery, Chairman of the Building and Repair Committee, said that they had called on N. D. Goodell, the architect, Friday, and asked him what would be his charge for drawing the specifications, details, etc., and suggested that the preparation of the new school should be left to him.

Another subject closely allied to this, and of vast importance, was also suggested as one to be of great interest for consideration at these meetings, and that was the pests which, unless controlled, will soon dispose of all surplus fruit and relieve the necessity for seeking an extension of the fruit market.

The committee told him they would give him all the information available upon the subject, and he agreed to accept, and the committee has withdrawn the tender. Mr. Avery claimed that the pencil drawings that Mr. Seale had drawn were worthless, and he would not give him twenty cents for them. The committee, however, has consented to go to Oaklawn with the architect, make new drawings, and endeavor, so far as possible, to get up specifications that will give them a better house, for less money than had been estimated.

Mr. Goodell went to Oaklawn and the last work spoken of his charge would be \$40 or more, or \$50 in all. This, he claimed, was a saving of \$240, from what the Board had agreed to pay Mr. Avery.

After some little discussion relative to Mr. Seale's bill, the committee was granted further time, and the Board adjourned to 8 P. M. Thursday, when the committee is expected to hand in its final report.

## BASE BALL.

Atas vs. Union—Knickerbockers vs. Electrics.

Notwithstanding the unusual warm weather, there was a large assembly at the Recreation Grounds yesterday afternoon to witness the third of a series of games between the Atas and Union. T. E. English was chosen umpire and did his work conscientiously. The Atas won the toss, sent the Unions to the bat and put them out in one, two, three order. Robertson took up the ash to open for the Atas, and after five batters, the change to send a fast ball, Hilbert got out at first. Meagher took up the ash to open for the Unions, and got out at first. Robertson in, and got to second himself. The Atas then sent out the Unions, and the fifth inning the umpire declared Cook out at first, and then sent out the Unions, and the Atas won at second just in time. Ahen was put out at first, and Renfro fanned. From that time until the last half of the game, the Atas continued to send out the second, ran on in a hit of Hennessy to left field. The Unions failed to tally in the ninth inning, and the Atas won by a score of 10 to 8. A henry, a Barry's pitcher, was better than it had been expected to be, but he was at times batted freely. Renfro held him strong to the end of the game. Neither pitcher gave up a run, and the Atas' side was generally good, and in this brilliant especially the work done in the "garden" by Gorham, Stanton, Borcher and Cross. The latter, however, did not do well, and was beaten. After a lively pitching contest the Atas expressed themselves willing to let the runner consider safe, and the game was over. Following is the score:

SMUEL H. GERRISH, Secretary.

Reception of "Father" Upchurch—Installation of Officers.

Grangers Hall was crowded Saturday evening by members of Sacramento and Union Lodges, A. O. U. W. and Lily of the Valley, Degree of Honor, assembled to greet "Father" Upchurch, founder of the Order, and the Grand Officers, accompanying the officers in the lodges. The honored guest of the evening arrived about o'clock accompanied by Grand Lecturer Reading and received a hearty welcome. Judge W. A. Hendry, a friend and interested observer of workflow and was followed by Grand Master Workman Duncan McPherson whose remarks were listened to with close attention. "Father" Upchurch was seated in a chair in a folding chair, and was returned to his seat after the reception of the evening.

At the close of the meeting the worthiest gentleman was warmly applauded. Subsequently the Grand Lecturer delivered an able address, and then the following officers of the lodges were installed:

Franklin John White, Foreman; R. Phillips, Overseer; James S. Reid, Guide; John Burke; A. R. Stinson, First Lieutenant; Samuel H. Gerrish, Second Lieutenant; C. C. Scearle, Third Lieutenant; Oliver H. Warden, Ensign; John Foley, First Sergeant; J. Pierce, Secretary; R. H. Shea, Treasurer.

High uniforms, which were very neat, consisting of black coat, caps and white patent-leather belts.

The playmate gave the alarm, and the child's father and a hired man ran to the rescue. The greatly frightened parent jumped into the river at the terns and cried for help, while the hired man, possessed of more presence of mind, ran down the stream some fifty yards, and catching a glimpse of the struggling form of the child, ran back to the terns, it being now the last time he jumped in and remained the little girl. Some time elapsed before life was restored to the almost prostrate child, but at last accounts the child was well and happy, although slightly scared of water.

POLICE COURT.—In the Police Court Saturday Harry Lewis, the "gentleman from Los Angeles," arrested on a charge of misdemeanor embezzlement, preferred by H. W. Williams, pleads guilty and is fined \$125 or 120 days. The money and watch which he had in his possession repaid Williams the sum of money he had obtained from him. Joe Frye was tried by a jury on a charge of assault and battery, and sentenced to 90 days in the County Jail.

The case of John Rogers charged with being a common drunkard, was continued until this morning.... The half dozen small boys who had been sent to the police for mischief in making a raid on a fruit garden were called up, and as it appeared that the boys had behaved themselves properly since their cases first came to the attention of the Court, they were discharged.

CITY TREASURY.—The following were the receipts for the week ending Saturday, July 11th. From Jno. M. Howland, cemetery dues, \$34; A. S. Woods, water rates, \$10; N. A. Kidder, harbor dues, \$10; E. H. McKee, sale of material, \$17; W. A. Hendry, Police Court fines, \$30; Geo. A. Purnell, dog licenses, \$38; Geo. A. Purnell, dog tax, \$8; Wm. H. Nielsen, street assessment fees, \$34.75; Wm. Henley, Justice Court fees, \$7; H. B. Nielsen, street assessment, \$6.05; E. H. Buckley, street assessment, \$1.50; Total, \$79. Total amount in city treasury, \$306,884.39.

METROPOLITAN THEATER.—At the Metropolitan to-night another novelty will be presented, and another opportunity afforded the theater-going public to enjoy an evening of laughter. The attraction will be Wm. Mastey (well known here through his previous ventures) and his highly amusing absurdities.

We & Co. at the theater. It does not pretend too much plot, but abounds in mirth-provoking situations and entertaining dialogue. The prices of admission will remain seventy-five and fifty cents, without extra charge for reserved.

## FRUIT-GROWERS' MEETING.

Held at Grangers' Hall Last Saturday—An Association to be Formed.

Another meeting of fruit-growers was held at Grangers' Hall, in this city, on Saturday. Asa Lowe was elected Chairman of the meeting, and E. Greer, Secretary. The committee appointed at a previous meeting to consider the advisability of forming an association for mutual protection and benefit, and especially with a view to report the present prices for fruit-growers' association, with headquarters in this city; said association to engage in shipment of fruit grown by its members, and also in conducting a general trade.

The report was accepted and approved. Quite a lengthy discussion followed, in which it was distinctly avowed that the purpose of the organization was to be in any manner a wage war to come into conflict with other growers, but to contend with present difficulties, and by an active effort seek to enlarge the market for our fruits by advertising the area over which they are now sold. The Association was to be formed at a meeting of all fruit-growers in the city, at which all fruit-growers should be invited to participate in a free exchange of views, conference and deliberate upon a general interest of the Association, and upon the best methods of planting, cultivation, pruning, building and grafting; the most profitable varieties for various uses, and the quantity to be raised upon each section of land. The Association would be enabled to dispose of their orchard and vineyard products at more remunerative prices, the home market would be expanded to the extent of these added shipments, and prices and the demand for the fruits of small growers would be proportionately increased for local consumption and to supply the commissary.

It was also proposed that the scope and purpose of the Association should extend beyond that of merely disposing of fruit. It was suggested and warmly approved that the Association might be organized to hold an annual fair in this city, at which all fruit-growers would be invited to participate in a free exchange of views, conference and deliberate upon a general interest of the Association, and upon the best methods of planting, cultivation, pruning, building and grafting; the most profitable varieties for various uses, and the quantity to be raised upon each section of land. The Association would be enabled to dispose of their orchard and vineyard products at more remunerative prices, the home market would be expanded to the extent of these added shipments, and prices and the demand for the fruits of small growers would be proportionately increased for local consumption and to supply the commissary.

Another subject closely allied to this, and of vast importance, was also suggested as one to be of great interest for consideration at these meetings, and that was the pests which, unless controlled, will soon dispose of all surplus fruit and relieve the necessity for seeking an extension of the fruit market.

Thomas Merry, who was accidentally shot in the foot while hunting near Shingle Springs some weeks ago, has been taken to the hospital, and is doing well.

At the Park yesterday afternoon, after the baseball match, Wm. Newborth, catcher of the Knickerbockers, and J. J. Shannon had a foot-ache, eight yards, which the former won. It was strictly "on the square."

Deputy Sheriff Wheeler, of Santa Clara county, arrested in this city Saturday a Chinaman named Ching Yung Pong, for misdemeanor. He gave bonds for his appearance to answer to the complaint on the 15th inst.

A shooting on K street east of the Western Hotel was entered by a thief early yesterday morning, and robbed of a few dollars in change. Entrance was gained by breaking the glass in the rear of a rear door and removing the fastenings.

Colonel Tomlinson, the confidence operator who swindled various Sacramentoans once upon a time, got arrested at San Francisco for stealing from a citizen named John Timmons the sum of \$200.

W. F. Emerson was arrested in San Francisco on two charges of obtaining money under false pretenses—getting \$75 from one man and \$100 from another.

Bertie Green, son of H. E. Greer, of this city, was his victim, and the cogs of machinery at E. Greer's ranch, on the lower Stockton road, Friday, suffered severe injury.
